

## SYSTEMATICS

- 385 **Robert A. Fensome, G. Raquel Guerstein and Graham L. Williams**  
New insights on the Paleogene dinoflagellate cyst genera *Enneadocysta* and *Licracysta* gen. nov. based on material from offshore eastern Canada and southern Argentina

## PALEOBIOLOGY

- 411 **Marie-Pierre Aubry and Alicia Kahn**  
New coccolithophores from the deep photic zone: Implications for evolutionary morphological convergence in the calcareous nannoplankton

## PALEOCEANOGRAPHY

- 433 **Laia Alegret and Silvia Ortiz**  
Global extinction event in benthic foraminifera across the Paleocene/Eocene boundary at the Dababiya Stratotype section

## TAXONOMY

- 449 **Takuya Itaki and Kjell R. Björklund**  
Bailey's (1856) radiolarian types from the Bering Sea re-examined
- 465 **Severyn Kender, Michael A. Kaminski and Robert W. Jones**  
Four new species of deep water agglutinated foraminifera from the Oligocene-Miocene of the Congo Fan (offshore Angola)
- 471 **Josep M. Bernaus and Pierre Masse**  
*Carinoconus iraqiensis* (Foraminifera), a new orbitolinid from the Cenomanian Mishrif Formation of the oil fields of southeastern Iraq
- 477 **Carlos Lancis and José-Abel Flores**  
A new biostratigraphically significant calcareous nannofossil species in the Early Pliocene of the Mediterranean
- 482 **Luis O'Dogherty, and Patrick De Wever**  
*Tubilustrionella*, a new name for *Tubilustrium* O'Dogherty 1994, non Distant 1916
